

Increasing Accessibility to Algebra & Geometry for All Students (IAAG)

Project Description

Increasing Accessibility to Algebra & Geometry for All Students (IAAG) - a teacher professional development project, which offers math content and pedagogical strategies for general education, ELL and special education mathematics teachers of grades 5 through 10. It strengthens teachers' understanding of various algebraic and geometric concepts. Teachers learn universal design strategies and techniques to increase accessibility of rigorous mathematics to a broad range of learners.

The IAAG training has been vetted and approved for both the Massachusetts' Department of Elementary and Secondary Education's (DESE) Professional Development Institute (PDI) and the District and School Assistance Centers (DSAC).
