Project Description

(a) The carrying out of preliminary work, including obtaining cost estimates, revenue estimates, preliminary design specifications, feasibility studies, surveys, and site analyses to determine the feasibility, approximate size, scope, purposes, location and other characteristics of any building, structure or facility the Authority is authorized by Chapter 703 of the Acts of 1963, as amended, to provide;

(b) The expansion of the Food Service area, as described herein including building systems and components, furniture, and equipment primarily for the use by students and staff of the Academy, and their dependents, and which the Authority is authorized by Chapter 703 of the Acts of 1963, as amended, to provide; and

(c) The carrying out of improvements, renovations, and other work on and the provision and installation of furnishings, fixtures, and equipment for other buildings, structures, or facilities the Authority is authorized by Chapter 703 of the Acts of 1963, as amended, to provide.

Project Overview
The project is an expansion to the back of house food prep area at the Mass Maritime Mess Deck. The current design study will determine the amount of square footage required by Chartwells for growing food preparation requirements and cold storage, due to current and anticipated student enrollment. Concept drawings include a roughly 500 square foot addition to the back of house with a large walk-in refrigerator, food prep area and a reconfigured back room to move efficiently handle dry and cold storage. The project includes an upgrade to the existing air hander to allow more air circulation for the kitchen staff along with a conversation from dumpsters to large electric trash compactors to handle increasing capacity. The project will follow Chapter 149 procedures.

Project Funds Source
The project is funded by Massachusetts Maritime Academy.
