Description of Project:

1. The leasing by the Authority, as lessee, from the Commonwealth of Massachusetts (the “Commonwealth”) (or an entity authorized to act therefor), as lessor, of a parcel of land in Buzzards Bay, Massachusetts on the campus of Massachusetts Maritime Academy (the “Academy”).
2. The carrying out of preliminary work, including the obtaining of cost estimates, revenue estimates, preliminary design specifications, feasibility studies, surveys, and site analyses to determine the feasibility, approximate size, scope, purposes, location, and other characteristics of any building, structure or facility the Authority is authorized by Chapter 703 of the Acts of 1963, as amended, to provide.
3. The construction on such parcels and the furnishing and equipping of a facility primarily for use by the Academy consisting generally of
 - a. student residential facilities, including living accommodations containing an aggregate of approximately 200 beds primarily for use by students and staff of the Academy, and their dependents, and a portion of which may be for use (pursuant to one or more leases or other contractual arrangements) by persons affiliated with one or more other institutions, as well as associated common spaces; and
 - b. associated parking areas if required, and ancillary facilities, which may contain space for retail food service and other retail and commercial purposes, non-profit and/or governmental uses (any of which uses and the operation and maintenance of all or any part of which facility may be pursuant to one or more leases or other contractual arrangements with appropriate persons or entities (including persons or entities engaged in for-profit enterprises)).
4. The carrying out of improvements, renovations, and other work on and the provision and installation of furniture, fixtures, and other equipment for other buildings, structures, or facilities now or hereafter owned or leased by the Authority, or used primarily by the students and staff of the University, and their dependents, and which the Authority is authorized by Chapter 703 of the Acts of 1963, as amended, to provide.

Project Overview

Massachusetts Maritime Academy's enrollment is increasing and is on track to reach a total enrollment of 1,400 cadets by 2016. The Academy's policy to house all undergraduate cadets creates an immediate demand for 200 beds. The Authority retained the architecture firm Prellwitz Chilinski Associates and the construction management firm Shawmut Design and Construction to begin design and preconstruction services. The proposed expansion is to be constructed as a two-story vertical expansion and addition to Company 4. Renovations will be made to the other companies to provide student amenities for the total cadet population.
