State Authority

- **Professional licensing**
  
  *Respective by state/profession*
  
  Standards + enforcement of practice
  
  Program approvals may be required

- **Compacts**

  *State led solutions*
  
  Enables portability of a license to another participating state
  
  Thus far, all compacts are post-licensure
Federal Regulations

34 CFR 668.43 – Institutional Information

Professional Licensure Notifications – 668.43(a)(5)(v) & 668.43(c)

Compliance is tied to participation in Title IV HEA programs.

FOUR KEY ELEMENTS:

1. Regulations address all modalities (includes Face to Face and Online)

2. Important to understand the type of Educational Program subject to notifications.

3. Important to know the information to be provided for public notifications.

4. Important to know what and when information is to be provided for direct/individualized notification.
Which Programs Require Notifications?

34 CFR 668.43(a)(5)(v)

Educational Programs:

1. Designed to meet educational requirements
   - For a specific professional license or certification that is
   - Required for employment in an occupation, or

2. Advertised as meeting such requirement.

3. Information regarding whether completion of that program would be sufficient to meet licensure requirements in a state for that occupation.
Public Notifications

What exactly is required?

• A list of all States for which the institution has determined that its curriculum meets the State educational requirements for licensure or certification;

• A list of all States for which the institution has determined that its curriculum does not meet the State educational requirements for licensure or certification; and

• A list of all States for which the institution has not made a determination that its curriculum meets the State educational requirements for licensure or certification;
Prospective Students:

If the institution indicates that it does not meet or has not made a determination where the prospective student is located; notice to that student to that effect must take place prior to the student’s enrollment in the program. Prior to enrollment = prior to financial commitment.

Enrolled Students:

If the institution makes the determination that the program does not meet requirements in a state where an enrolled student is currently located, the institution must provide notice to that effect within 14 days of making that determination.
SARA Compliance
SARA Manual Section 5.2

Section 5.2 - Programs leading to Professional Licensure
• SARA has no effect on State professional licensing requirements.
• Any Institution approved to participate in SARA that offers courses or programs designed to lead to Professional Licensure or certification or advertised as leading to Licensure
• must satisfy all federal requirements for disclosures regarding such Professional Licensure programs under 34 §C.F.R. 668.43.
• For SARA purposes, these requirements will also apply to non-Title IV institutions.

For SARA purposes,
• institutions that are unable, after all reasonable efforts, to determine whether a program will meet state professional licensure requirements
• shall provide the student or applicant with current contact information for any applicable licensing boards,
• and advise the student or applicant to determine whether the program meets requirements for Licensure in the State where the student or applicant is located.

Compliance and You!

- Why is compliance important?
  - It’s the law
  - Student as consumer
  - Institution’s moral obligation
  - Marketing advantage

- Individualized institutional approach
  - Risk tolerance

- Defensible policies
Institutional Challenges

• Institutional leadership
  o Juggling many priorities
  o General counsel concern re: liability
  o Commitment to ongoing compliance responsibility
  o Policies and practices
    ▪ DOE latitude

• Other staff
  o Faculty pushback
  o Disclosures may be contrary to marketing dept’s goals
  o Understanding compacts
    ▪ Post rather than pre-licensure
Institutional Challenges, cont.

- Compliance staff
  - Project management plus leadership skills
  - Where does the function reside?
  - Access to information
    - Subject matter experts
    - Data
      ✓ Student location
      ✓ Program content
  - Disclosure content and logistics
External Challenges

• Licensing Boards not part of the development of the notification requirements
  o Still not part of Neg Reg

• Relationship between higher education and licensing boards

• State licensing boards often do not have the staff to respond to inquiries
  o The importance of a well drafted email!
Foundation of a Compliance Plan

• Data must be solid
  o Student location
  o Curriculum content

• Verify applicability of assumptions used in existing reports

• Develop a Program List for those that are Designed to meet or are Marketed as meeting educational requirements

• Broad swath to avoid liability
  o Face to face and distance ed
  o State definitions of licensed professions vary greatly
  o Eventually all 50 states

• Documentation is critical
Student Location Key Points

• The institution must have a policy for determining student location
• The institution must have a policy for being notified when a student has relocated
• The policies must be consistently applied across groups
• The data needs to be accessible for compliance reporting
• The practice across the institution MUST match the policy
  o If not, make revisions so that they align
• There are plenty of resources available to help institutions create these policies
• Not knowing where the students are located is not an option
SARA: Modifications to Align with Federal Regs

5.2 Programs leading to Professional Licensure
SARA has no effect on State professional licensing requirements. Any Institution approved to participate in SARA that offers courses or programs designed to lead to Professional Licensure or certification or advertised as leading to Licensure must satisfy all federal requirements for disclosures regarding such Professional Licensure programs under 34 §C.F.R. 668.43. For SARA purposes, these requirements will also apply to non-Title IV institutions.

For SARA purposes, institutions that are unable, after all reasonable efforts, to determine whether a program will meet state professional licensure requirements shall provide the student or applicant with current contact information for any applicable licensing boards, and advise the student or applicant to determine whether the program meets requirements for Licensure in the State where the student or applicant is located.
SARA Differences from Federal Regs

• For all SARA institutions (Title IV and non-Title IV):
  o **General** disclosures are now required.
  o **Direct** disclosures are required when an institution knows that the program will not meet licensing requirements and when it does not know.
  o Institutions are required to provide **contact information** for professional licensing boards when the institution cannot determine, after all reasonable efforts, whether their course or program will meet the licensing requirements.

Issue #6 : Certification Procedures – NO CONSENSUS

Department of Education Proposed Language Week 3 (for which the negotiators voted)

34 CFR 668.14 (b)– Adding to the Program Participation Agreement

(32) In each State in which the institution is located or in which students enrolled by the institution are located, as determined at the time of initial enrollment in accordance with the requirements in 34 CFR 600.9(c), the institution must ensure that each program eligible for title IV HEA program funds—

(i) Is programmatically accredited, if such accreditation is required by the State or a Federal agency; except that programmatic pre-accreditation is sufficient if acceptable according to the State or Federal agency;

(ii) Satisfies the applicable educational prerequisites for professional licensure or certification requirements in the State so that a student who completes the program and seeks employment in that State qualifies to take any licensure or certification exam that is needed for the student to practice or find employment in an occupation that the program prepares students to enter; and

(iii) Complies with all State consumer protection laws, including both general applicable State laws and those specific to educational institutions, except where State requirements for obtaining...
