It is not a substitute for a nursing program's employment policies and procedures so there may be additional steps in the interview and/or hiring process. The nursing program will see your inquiry and the contact information you have entered as part of your profile and will get back to you with additional instructions if they feel this is a good match.
- 20. I created a Clinical Faculty Profile several weeks ago and haven't received any calls, why?** The Clinical Faculty Database is a tool to connect nursing programs and potential faculty candidates and so is dependent upon the needs of the nursing programs. Search the open positions, and if you see position that you feel could be a match, send an inquiry to that nursing program.
