

2-to-4 Year Summer STEM Transfer Academy Program

Opportunity for students from a community college transferring into SSU to major in a STEM Discipline

(Biology, Chemistry, Computer Science, Geography, Geological Sciences or Mathematics)

JULY 11 - AUGUST 20

On campus and off campus events
on Tuesdays and Thursdays!

Participate in a free summer school course to get you started—During Summer Session II, take ENL 310 Introduction to Professional Writing, which will have a STEM focus and count as an advanced writing Level II course which is part of the general education requirements.

Students will be supported by peer instructors and have an opportunity to meet STEM professors and talk about the different programs and careers in STEM.
