

# Applying & Leading Assessment in Student Affairs

**Joe Levy**  
**@joebookslevy**

@joebookslevy

# Outcomes of Session

Explore five **common assessment myths**

Reinforce assessment **purpose** and **process**

Identify **available resources** for assessment

Reflection & Call to Action

# Common Assessment Myths

Myth #1:  
Don't Know What Assessment Is

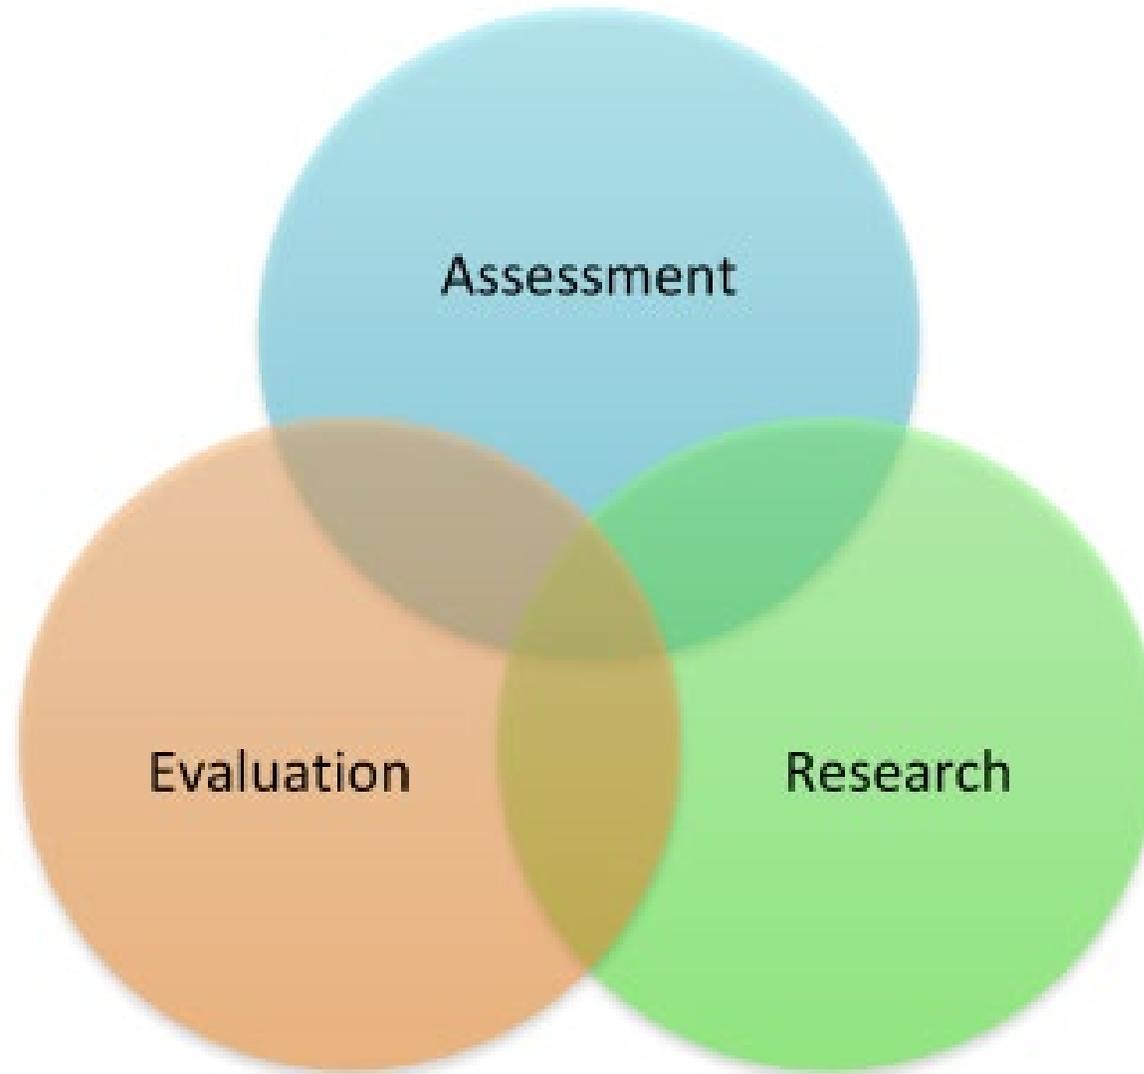

# Is this like research? Or evaluation? Or...

@joebookslevy

# Is this like research? Or evaluation? Or... (cont.)

Engage  
student

Assessing  
**learning**

# Don't we already do this?

@joebookslevy

# Don't we already do this? (cont.)

Myth #2:  
That's Not My Job/Responsibility

# Not My Job!

*And by the way, that's your job anyway.*

# Assessment People “Do” Assessment

Myth #3:  
Historical & (School) Cultural Issues

We've always done it this way...

@joebookslevy

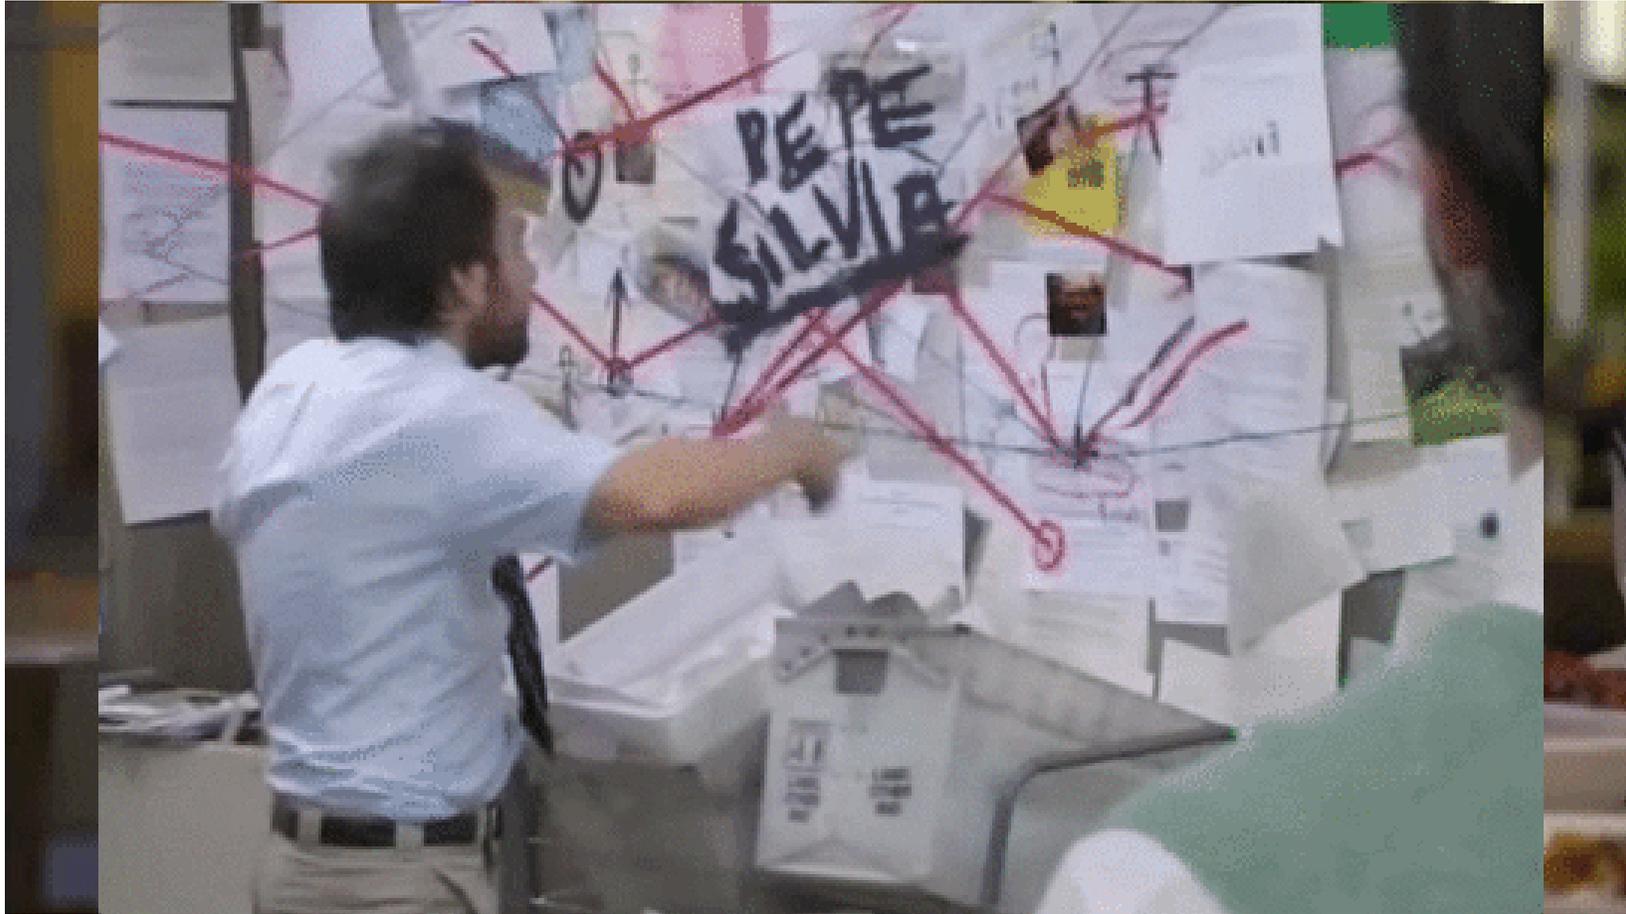

I'm not empowered to do this...

@joebookslevy

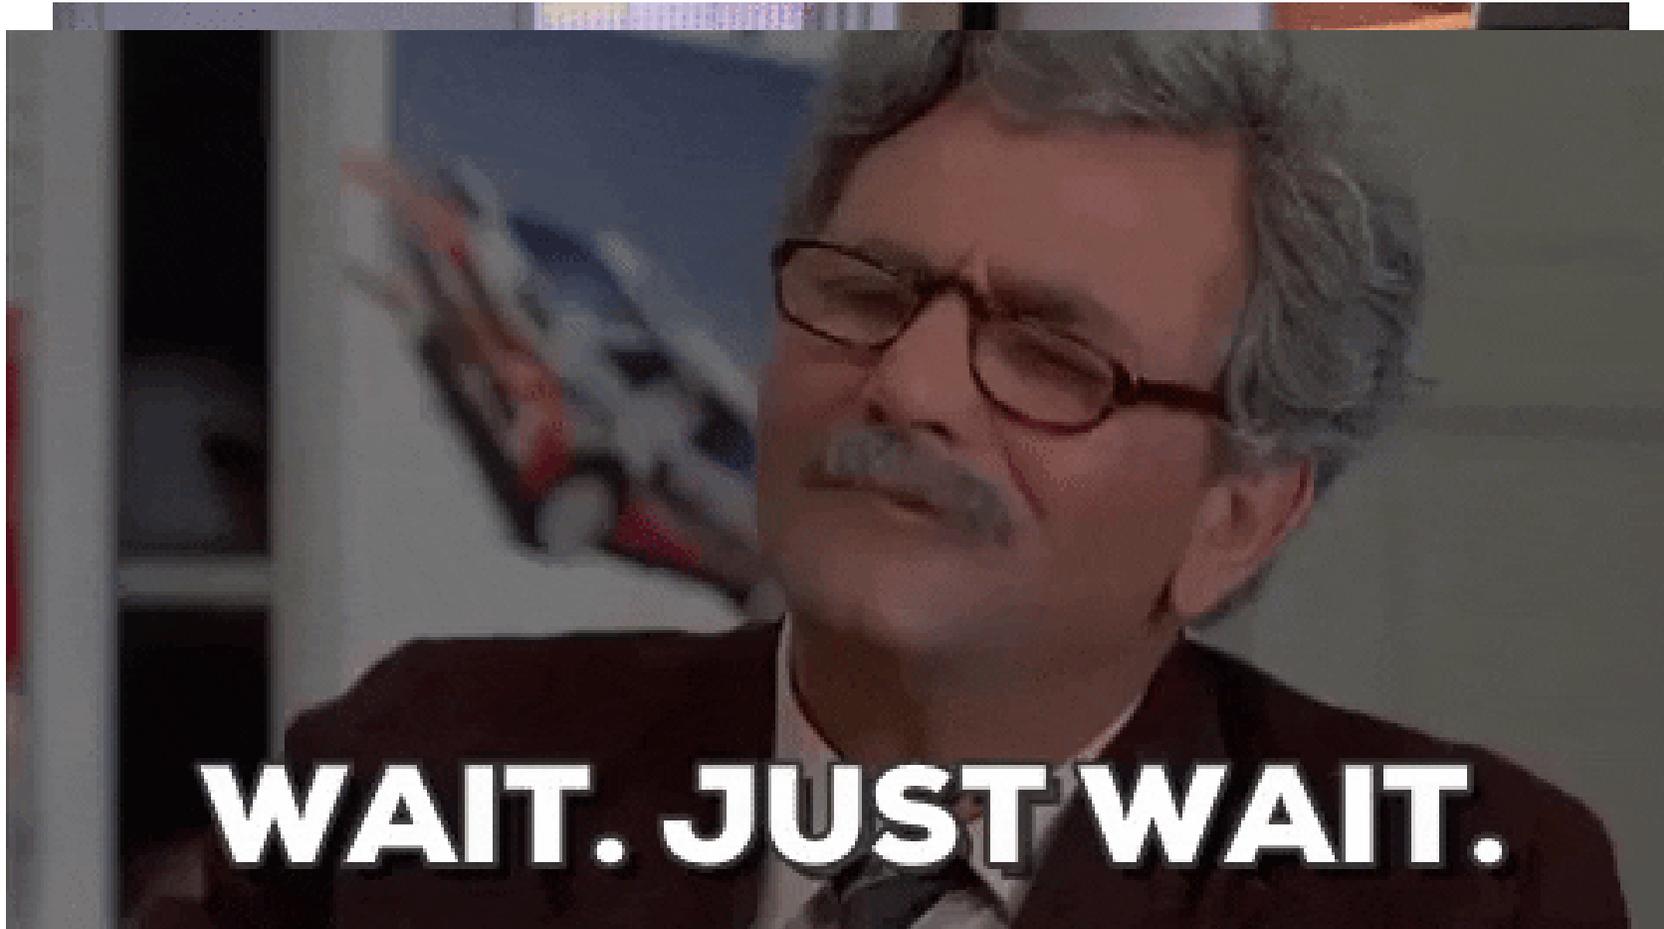

Myth #4:  
Not Enough Resources/Time For  
Assessment

This wasn't part of our goals/strategy...

@joebookslevy

We don't have the skills or technology

@joebookslevy

# Freeware

The screenshot displays the RStudio interface with R code in the editor and a pie chart in the viewer. The code uses ggplot2 to create two pie charts: one for 'Reasons Taking Course' and another for 'Online Learner Type'. The pie chart in the viewer is titled 'Reasons Taking Course' and shows the following data:

Reason	Percentage
I am curious about MOOCs	31%
I enjoy being part of a community of learners	4%
I enjoy learning about topics that interest me	2%
I hope to gain skills for a new career	4%
I hope to gain skills for a promotion at work	7%
I like the format (online)	29%
I want to try Canvas Network	22%

```
89 #Create basic bar
90 library(ggplot2)
91 pier=ggplot(rdf2, aes(x="", y=Freq, fill=var1)) + geom_bar(stat="identity", width=1)
92 #convert to pie (polar coordinates) and add labels [adjust start to rotate pie]
93 pier = pier + coord_polar("y", start=1) + geom_text(aes(label = paste0(round(rdf2$Freq/sum(rdf2$Freq)*100), "%")), position = position_stack(vjust = 0.5))
94 #Remove labels and add title
95 pier = pier + labs(x = NULL, y = NULL, fill = NULL, title = "Reasons Taking Course")
96 # Tidy up the theme
97 pier = pier + theme_classic() + theme(axis.line = element_blank(),
98 axis.text = element_blank(),
99 axis.ticks = element_blank(),
100 plot.title = element_text(hjust = 0.5, color = "#666666"))
101 pier
102
103 #Pie Chart for online Learner Type
104 learners<-df2[!(is.na(df2$online_learner_type) | df2$online_learner_type==""),] #remove null values
105 rslslices <- table(learners$online_learner_type) #create table of responses
106 ldf<-as.data.frame(rslslices) #create df from this for plotting
107 #create basic bar
108 library(ggplot2)
109 piel=ggplot(ldf, aes(x="", y=Freq, fill=var1)) + geom_bar(stat="identity", width=1)
110 #convert to pie (polar coordinates) and add labels [adjust start to rotate pie]
111 piel = piel + coord_polar("y", start=0) + geom_text(aes(label = paste0(round(ldf$Freq/sum(ldf$Freq)*100), "%")), position = position_stack(vjust = 0.5))
112 #Remove labels and add title
113 piel = piel + labs(x = NULL, y = NULL, fill = NULL, title = "Online Learner Type")
114 # Tidy up the theme
115 piel = piel + theme_classic() + theme(axis.line = element_blank(),
116 axis.text = element_blank(),
117 axis.ticks = element_blank(),
118 plot.title = element_text(hjust = 0.5, color = "#666666"))
119 piel
120
121
```

The console shows an error: `Error in stri_replace_first_regex(string, pattern, fix_replacement(replacement), : Syntax error in regex pattern. (U_REGEX_RULE_SYNTAX)`. The Environment pane shows the following data frames:

Object	Variables
const	3 obs. of 2 variables
de	46 obs. of 20 variables
df2	46 obs. of 20 variables
pier	List of 9
rdf	8 obs. of 2 variables
rdf2	7 obs. of 2 variables
reasons	45 obs. of 20 variables
ws	46 obs. of 44 variables

The Functions pane shows the `df` function: `function (x, df1, df2, ncp, log = FALSE)`.

Myth #5:  
Results Will Be Used Against Me

# Don't want to be evaluated/scrutinized

# Nothing happens with results anyway

# Reinforcing Purpose & Process

# Answer and Evidence

How do we know students learn what's intended?

What does achievement of learning look like?

What have we learned about student learning which we can use to improve/act for the future?

# What Assessment Should Be

# Meaningful

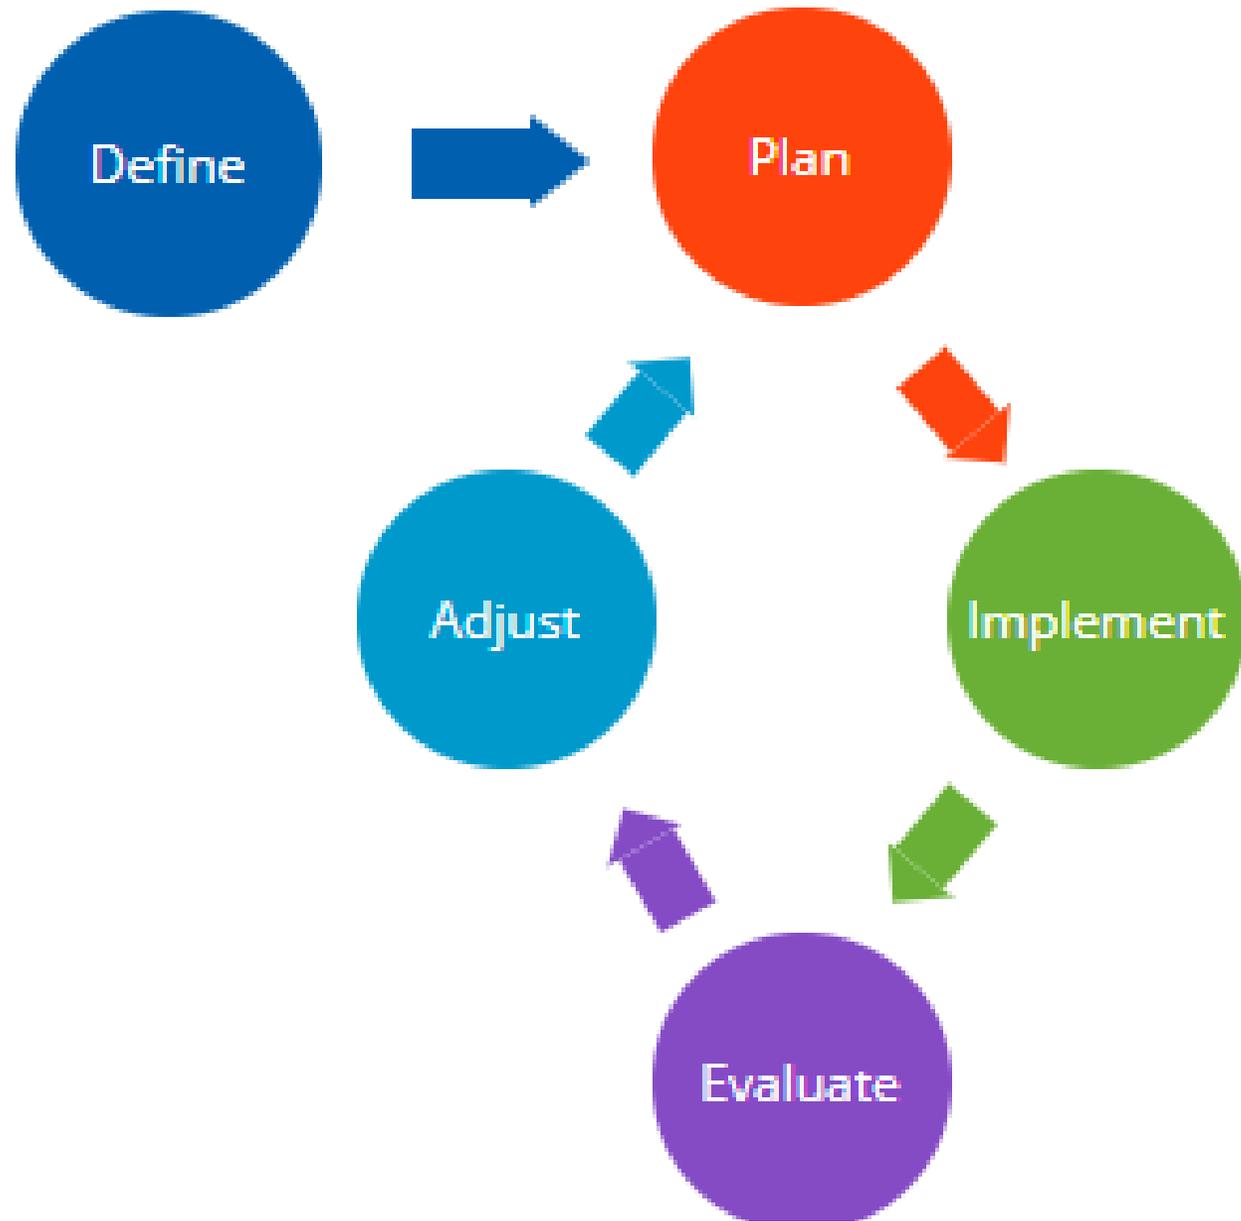

@joebookslevy

# Manageable

# How Assessment Looks

# Socialize & Normalize

# Busting your Barriers

What myths do you struggle to bust?

1. Don't know what assessment is
2. Assessment is not my job/responsibility
3. Historical & cultural issues
4. Not enough resources/time for assessment
5. Results will be used against me

What are at least 3 ways to minimize/mitigate issues?

# Busting your Barriers (Keynote Callback)

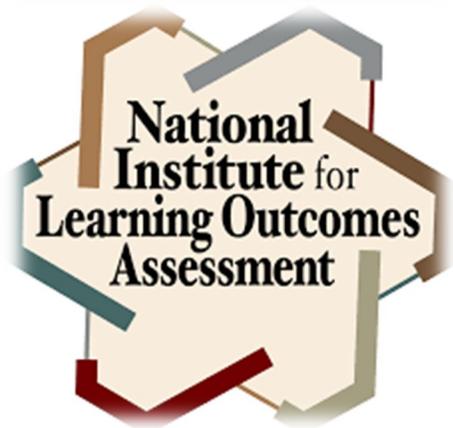

What barriers do you struggle with most?

1. Lack formal training/experience in assessment
2. Lack of agency and autonomy can discourage work
3. Individualized efforts prevents support/community
4. Lack (internal) accountability mechanisms (+/-)

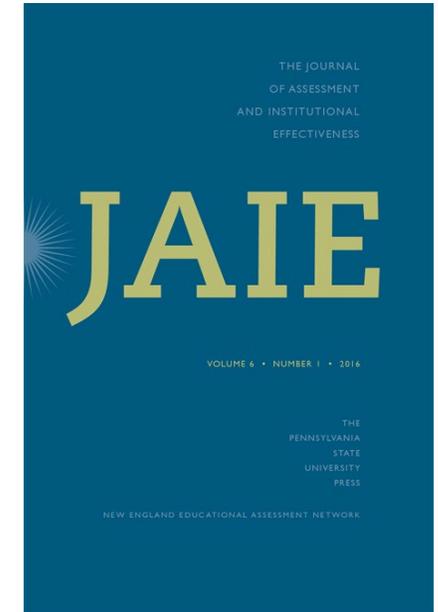

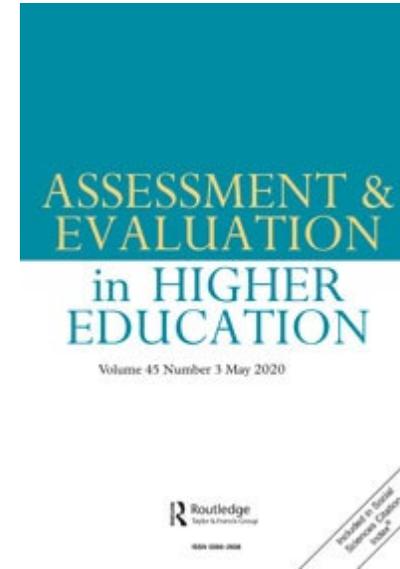

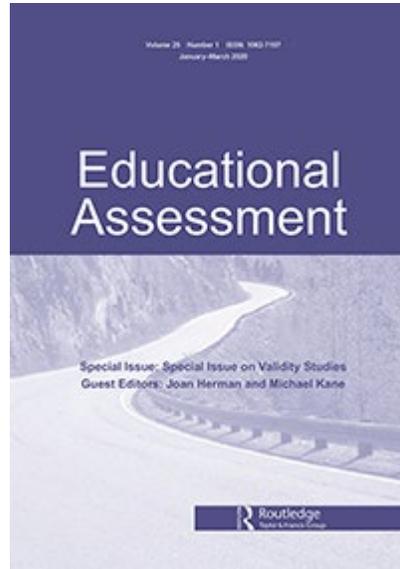

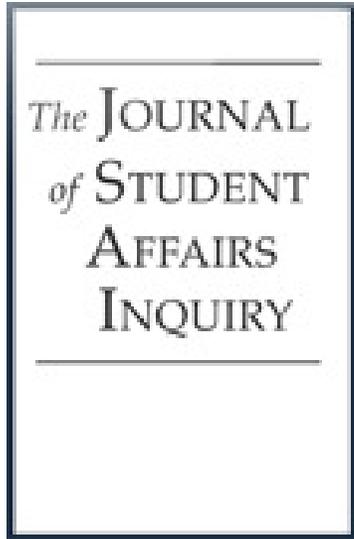

What are at least 3 ways to minimize/mitigate issues?

## Applying and Leading Assessment in Student Affairs

2021 Course: February 8, 2021 - April 5, 2021

Registration is open (click below)! *Registration closes March 26, 2021.*

8 self-paced modules of...

8 discussion boards

7 quizzes

2 written assignments

Video lectures & personal takes

Required & further-learning readings

Optional small groups & live sessions

1. Assessment Foundations for Effective Practice
2. Assessment Planning
3. Coaching & Consulting
4. Aligning Assessment w/ Institutional Priorities
5. Critical Approaches & Mindsets
6. Using Data to Inform Decisions
7. Culture of Assessment
8. Connecting Concepts to Advance SA Assessment

# Next Open Course

Stay tuned to SAAL website for future course details!

<http://studentaffairsassessment.org/online-open-course>

We already have an interest form available so you can give your email and get updated first with new course launch and registration information:

<https://forms.gle/4vnWAdXnM5ec39ds5>

# Reflection & Call to Action
