at UMass Lowell

AMCOA North Regional Workshop
**Build your Plan: Campus Professional Development
for successful assessment practice**

Facilitated by Mark Nicholas, Ph.D., Executive Director - Institutional Assessment,
Framingham State University

This free, 3-hour workshop, sponsored by the Mass DHE, will be an opportunity for teams from our North Region campuses to come together and focus on developing a strategic plan for the professional development that your campus needs to move assessment to the next level. Whether your assessment activities are just beginning, need redevelopment, or your team just an opportunity to touch base, this workshop will provide structure and time for planning.

We will soon send an invitation to each campus asking for you to identify participants. We are hoping each campus will bring a team of 4-5 individuals, comprising assessment and teaching/learning center professionals, relevant administrators, and one faculty member per campus. Through the DHE, AMCOA North will be able to offer one \$100 stipend to each campus to help ensure faculty participation.

For additional information, contact Paula_Haines@uml.edu; a request for RSVPs will be coming soon..
